

► POLICY | Responsible Conduct of Gambling (RCG)

1.0 OBJECTIVE

As a not-for-profit, member-based organisation, we fully support the principles of providing a safe gambling offering for our members. We hold this moral position because it is the right thing to do, and we do not wish to benefit from any individual's inability to self-manage their gambling habits.

Mingara Leisure Group (MLG) acknowledges that, while most people participate in gambling activities in a socially enjoyable and harmless manner, gambling can create problems for some individuals. The extent of these problems can range from occasional overspending to the development of serious gambling practices.

The club has accepted its social and legal obligations as a provider of gambling services to create a responsible gambling environment and a commitment to implement and adhere to Responsible Gambling legislation - Registered Clubs Amendment (Responsible Gambling) Regulation 2002 - and best practice for the benefit of customers and team members.

The objective of this policy is to ensure team members are aware of the behaviours that are above the line (acceptable) and those behaviours that are below the line (unacceptable) with respect to Responsible Conduct of Gambling.

above
the line

These actions are only some of the ways to live our values above the line.

- I provide assistance to anyone who asks for help with a gambling issue and involve my supervisor to help as soon as possible.
- I know and understand what the signage around the venue means, and where customers can get help.
- I inform my supervisor if a customer seems distressed in the gaming room.
- I have the knowledge to assist a customer to set Voluntary Pre-Commitment (VPC) on the member kiosks if asked.
- I assist customers to use the ATM or EFTPOS when there is a legitimate need, and ensure another team member is present.
- I assist family members with information about third party exclusions and involve my supervisor to help immediately.

our
values
below
the line

These actions are not the only ways that behavior can fall below the line.

- I do nothing when I recognise someone who is self-excluded playing the gaming machines.
- I do nothing when I see a customer in distress.
- I am not interested in helping a customer set their Voluntary Pre-Commitment (VPC) when asked.
- I discuss how much players have spent or won with others.
- I lend money and allow IOU's for customers to gamble with.
- I do not know or have any information when I am asked for third party exclusion. It's not my problem.

Below the line behaviour could be subject to counselling or disciplinary action, which may include termination of employment.

3.0 PROCEDURES

Some of the more common conditions that MLG complies with are:

- The club does not provide credit that could reasonably be used for the purpose of gambling including providing cash advances from credit cards.
- Loans are not made to customers or team members, which could be used for gambling.
- We ensure a reality check for customers, i.e., clocks are in place and monitored. These clocks include the LED display of times on each of the gaming machines in the gaming areas. All timepieces are set to the correct time and monitored.
- Minors are prohibited from Gaming areas; we monitor this continually and address issues if they arise.
- We have a player reward scheme that can only be used to buy goods and services and cannot be used for credit card payments or cash.
- We ensure that participants in our player reward scheme have access to their Player Activity Statements.

Activity Statement provides the following information in relation to gaming machine activity.

- The total amount of turnover, total wins, and net expenditure for the player.
- The total points earned and redeemed as the result of playing gaming machines.
- The total length of time during which a customer's card was inserted in the gaming machines during each 24-hour period in the month, and the total length of time during the whole month.
- A note advising that the statement only relates to the gaming machine play whilst the player's card was inserted into the machine and that it may not include information about wins on gaming machines that are part of an inter-club linked system.
